

Hello avid MUN-er,

This document is created to help you navigate through the folder.

This folder contains exclusively textbook chapters for the Model UN curriculum. The textbook chapters are categorised based on what they aim to educate, so you can identify what you want.

Most chapters can be read independently - but some might include references to other chapters for deeper understanding of certain concepts.

These resources are meant to be free and used to help beginner, intermediate and advanced MUN-ers alike. There are no restrictions on how these resources can be used, as long as credit is given to MYADP.

If you wish to add any suggestions or improvements, you can do so either by submitting it through our [suggestion form](#) or emailing MYADP at malaysiamunddevelopment@gmail.com.
